

# WinTree® CONNECT Trader

With the service contract WinTree® CONNECT - **Trader**, you have the assurance of the most comprehensive software suite, tailored to your business processes. The modules within the software complement and combine to provide the best possibilities for your software use at the optimal efficiency within your own work processes.

This includes the maintenance of relationship data, insight into stock movement and stock management, sales order administration, deliveries, invoicing, packing administration and processing of returned products. Sending purchases and call-ups at suppliers and maintaining suppliers offers (fictitious stock) as well as the possibility to use price tables or price codes is also included.

The service contract WinTree® CONNECT - **Trader** is available in 3 package types. Each software package suits a particular type of customer with particular business needs and work processes. There is a suitable package within WinTree® CONNECT for every customer type.

- GREEN:** The essential elements for stock and sales administration within a horticultural trading nursery.
- BLUE:** Expanded package, specially tailored to a horticultural trading nursery.
- GOLD:** Complete package of solutions especially for horticultural trading nursery, with additional customised solutions.

WinTree® CONNECT provides your business with an excellent combination and connectivity of your software within your working processes, in the office and outside in the field. TreeCommerce® Messenger is the digital communication platform that connects you with your customer and supplier. The WinTree® App provides a remote connection between the nursery, in the field and your office-based team. Each service contract includes a TreeCommerce® Messenger company account and an App license as standard. WinTree® CONNECT... connects!

## WinTree® CONNECT 2019

- » Supports compliance with laws and regulations, including Plant Health Regulations and Plant Passports.
- » Full and comprehensive packages with more modules and functions to support efficient working.
- » 1 WinTree® App license as standard.
